The Role of Funeral Administrator

A typical day in the life of a Funeral Administrator

- 9.00am** Arrive at the office. Check everything is clean and tidy.
Receive notification from the Duty Manager that a deceased was brought into our care.
- 9.30am** Telephone the next of kin to advise them of the next steps, regarding registration and to have a preliminary discussion about the funeral arrangements. Make an appointment for them to come to see me the following day. Telephone the doctor's surgery to request cremation paperwork.
- 10.00am** Continue to progress my ongoing funeral arrangements, including booking music at the crematorium, contacting the florist, preparing a service sheet and sending confirmations to the family, celebrant and gravedigger.
- Log some donations received by post, send out some client receipts and make up the banking.
- 12.00pm** Prepare Chapel of Rest and transfer a deceased ready for viewing.
- 12.30pm** Greet family and show them into the Chapel of Rest.
- 2.00pm** Receive a First Call from a nursing home advising that one of their residents has died. Arrange for our on-call team to attend.
- Telephone the next of kin from the nursing home removal to advise that the lady is now in our care and to offer help and guidance. The family are not ready to discuss the funeral arrangements yet so I will call them again tomorrow.
- 3.00pm** Telephone the family whose funeral is taking place tomorrow to run through the arrangements and to ask if they have any last minute questions or concerns.
- 4.00pm** A lady calls in to ask about a headstone for her husband's grave. I discuss the options available and show her the examples in our showroom. She made a selection so I helped her to decide on the inscription and have sent her request to the stonemason for a layout and cost. (I will type this up and send to the lady in due course).
- 4.30pm** Check through a draft service sheet before emailing to the client and minister for approval.
Check all paperwork is up to date before leaving for the day.
